## CONTINUING EDUCATION

*David Webb, Ph.D., Director of Continuing Education*

The Psychoanalytic Society initiated its Continuing Education Program in the Spring of 1981, and provides an annual series of courses. All offerings are psychoanalytic in orientation and the specific approach of instructors varies among Freudian, Interpersonal, and Existential points of view. Some courses are seminars meeting weekly for six to ten weeks; others are one- or two-day workshops. Courses are open to professionals in the mental health disciplines. Continuing education credits will be available through the various professional organizations.
