The Referral Service

is part of the Psychoanalytic Society of the Post-doctoral Program. All members of the Referral Service are either faculty, graduates, or psychoanalysts-in-training of the New York University Post-doctoral Program in Psychoanalysis and Psychotherapy.

The aim of the Referral Service is to provide the general public with referrals for psychoanalytic psychotherapy and psychoanalysis to highly trained practitioners, all of whom hold a doctoral degree and have post-doctoral training.

Referrals for psychotherapy are available for adults, adolescents and children, on the basis of a sliding fee scale with a minimum fee of \$20. per session.

For application or further information call PL 7-6300. The Referral Service provides immediate referral for an initial interview, with no waiting period. If this referral is not satisfactory for any reason, the applicant or the therapist may request another referral. Applicants will be seen in the private offices of the therapists who are located in the Greater Metropolitan area.

Individuals, schools, and agencies, etc. who wish more detailed information about the service may arrange to meet with a member of the staff at your convenience.
