## CONTINUITY AND CHANGE IN PSYCHOANALYSIS

While many of Freud's original concepts remain as the basic verities of psychoanalytic thought, there is much that has been the subject of debate and controversy. The conference focuses on current revisions in metapsychology, theory and practice in response to recent scientific advances and to changed socio-political realities.

### *The Psychoanalytic Society*

The Psychoanalytic Society is an independently incorporated organization composed of the faculty and graduates of the New York University Postdoctoral Program in Psychoanalysis and Psychotherapy. The Psychoanalytic Society functions as a professional, scientific, and educational association.

### *The Psychoanalytic Society also sponsors:*

- **The Continuing Education Program**, a program of seminars and workshops for mental health professionals and individuals with allied interests. All offerings are psychoanalytic in orientation; the specific approach of instructors varies among Freudian, Interpersonal, and Existential points of view.
- **Lectures** delivered by distinguished analysts. In the last year, the Society has sponsored speakers such as Helen Swick Perry, James Grotstein, M.D., and Hanna Segal, M.D.

- **Referral Service** offering moderate cost psychoanalysis and psychoanalytic psychotherapy. *The Referral Service of The Psychoanalytic Society is staffed by faculty, graduates, and senior matriculants of the New York University Postdoctoral Program for Psychoanalysis and Psychotherapy. Inquiries for information or referral may be made*
